2. MICROWORK

My friends
There is one great God and power
That has made the world and all things therein,
To whom you and I and all people owe their being
And well-being
And to whom you and I must one day give an account
For all that we do in this world.

Think of it as microwork

This great God
Hath written his law in our hearts
By which we are taught
And commanded
To love and help and do good to one another
And not to do harm and mischief unto one another.

Mechanical Turk

Is focused on making it possible
For you to code human intelligence
Inside a software application

Now this great God
Has been pleased
To make me concerned
In your parts of the world.

And to do it in very small units

And the king of the country where I live
Has given unto me a great province therein.
But I desire to enjoy it
With your love and consent.

Think of it as microwork

That we may always live together
As neighbors and friends,
Else what would the great God say to us
Who has made us not to devour and destroy one another
But live soberly and kindly together in the world

So

For a penny
You might pay someone
To tell you whether there is
A human in a photo

I would have you well observe
That I am very sensible

For two pennies
You might pay someone
To tell you whether there is
One detail page for each product

I would have you well observe
That I am very sensible

We don't want to have
Two detail pages for a product

With millions of detail pages,
This can often get out of sync

I would have you well observe
That I am very sensible
Of the unkindness and injustice
That has been too much exercised towards you,

We can be fairly confident

By the people of these parts of the world
And to make great advantages by you
Rather than be examples

That two detail pages

Of justice and goodness unto you,
Which I hear
Hath been matter of trouble to you,
And caused great grudgings and animosities,
Sometimes to the shedding of blood,
Which hath made the great God angry

Algorithmically
Algorithmically
Are duplicates
Are duplicates
We can be fairly confident

But I am not such a man

We can never be certain

But I am not such a man

We can never be certain

As is well known in my own country.

We can use our software
To narrow the field

I have great love and regard towards you

Find two candidates
That are probably duplicates

And I desire to win

Then use Mechanical Turk
To make the call

And gain your love

Mechanical Turk

And friendship

To make the call

By a kind, just, and peaceable life;

You've heard of software as service
Well, this is people as service

And the people I send

Put Human in the Loop

Are of the same mind

And shall in all things

Behave themselves accordingly

Put Human in the Loop

This is what pseudocode would look like

Put Human in the Loop

This is what pseudocode would look like

Put Human in the Loop

I shall shortly come to you myself

At what time we may more

And literally

Largely and freely

This pseudocode makes a call

Confer and discourse

To Mechanical Turk

On these matters

And asks

Is there a human in the picture?

In the meantime,

I have sent my commissioners

To treat with you about the land

Put human in the loop.
Is there a human in the picture?

*["So if you wanna come and work in an environment
where you're regularly delivering value to end customers
or to developer customers, this is the place to work."]*

3. EVERYTHING THAT WE DO WELL

I get asked all the time
Why are you doing this

What does it have to do with selling books

What does this
Have to do with selling books?

I say
First of all
We also sell groceries.

But second of all
It's not so much that this
Has anything do with selling books.

Selling books has a lot to do with this

So I am hopeful

We want to open up
Everything that we do well

We think we can empower
We think we can empower developers
With a whole new kind of technology
And make it into a really profitable business
For ourselves

4. WHAT ARE GREENS

WHAT ARE GREENS
AND HOW DO THEY WORK?

Green
Are the Farmer's Fridge reward currency.

Greens
Are only able to be accrued and redeemed
On physical Fridge purchases.

Earn 1 Green
For every \$2 you spend.

50 Greens
Earns you a \$9 reward code.

To accrue Greens,
Enter your phone number when you order at the Fridge.

To redeem Greens,
Download the app,
Where you'll be able to watch your Greens grow.

Greens
Will accumulate in your account even before you download the app—
So be sure you enter your phone number on the Fridge when you order every time!

5. GIFT ECONOMY

For their persons,
They are generally tall, straight, well-built
And of singular proportion.

They tread strong and clever,
And mostly walk with a lofty chin.

You can get very fixed on your gifts

Their diet is maize,
Sometimes roasted in the ashes,
Sometimes beaten and boiled with water,
Which they call hominy.

So everybody has gifts

They also make cakes, not unpleasant to eat.
They have several sorts of beans and peas;
And the woods and rivers are their larder.

But in liberality they excel
Nothing is too good for their friend.

You know you have gifts

Give them a fine gun,
Coat, or other thing,
It may pass twenty hands, before it sticks.

And you have things that you didn't get gifted

If a European comes to see them,
Or calls for lodging at their house or wigwam,
They give him the best place
And the first cut.

Maybe you're extremely beautiful

If you give them anything to eat or drink,
Be it little or much, If it be with kindness,
They are well pleased,

Maybe you're good at mathematics

Else they go away sullen,
But say nothing.

There are a lot of things that you can be given

They never have much,
Nor want much.

There are a lot of things that you can be given

Wealth circulates like blood
All parts partake

But those things can confuse you
Because they're not the things that can construct your life

Wealth circulates like blood
All parts partake

Those things can confuse you
Don't be proud of them
You can't be proud because they're gifts
You didn't earn them
You can only be proud of the things you earn

6. COUNTRY

Dear Friend

My true love in the Lord salutes you

This day my country was confirmed to me

My country was confirmed to me.

Under the great seal of England

With large powers and privileges

— A name the king would give it

In honor to my father —

By the name of Pennsylvania

Pennsylvania

Silvania

Pennsylvania

Country

My God has given it to me.

My God has given it to me.

And my God that has given it to me

Will bless and make it

The seed of a nation.

Country

My country was confirmed to me.

8. DECISIONS

My friends,
It hath pleased God
To cast you within my lot and care

We make decisions
Based on the long-term value we create

It is a business
That though I never undertook before
God hath given me an understanding

We make decisions
Based on the long-term value we create

You shall

As we invent
To meet customer needs

You shall be governed
By laws of your own making

When we are criticized
For those choices
We listen
We look at our selves

You shall be governed
And live as
A free people

When we think our critics are right

A sober and industrious people

We change

I shall not

When we make mistakes
We apologize

I shall not usurp
The right of any
Or oppress his person

But when you look in the mirror
Assess the criticism

That though I never undertook before
God hath given me an understanding

And still believe you're doing the right thing
No force in the world should be able to move you

God has furnished me with a better resolution
And has given me his grace to keep it
